### Research Assistant IDC

11/2017 – Present

Herzliya

As a research assistant in the field of probability and genome research, I built a user interface for building graphs and running algorithms on them

#### Achievements/Tasks

- Developed project that drove interaction, using Java, Spring, React, Redux.

Contact: Ilan Gronau – instructor

## EDUCATION

### BSc , computer science IDC - Interdisciplinary Center Herzliya

10/2014 – Present

GPA of 93.

### High School Yavneh Haifa

#### Courses

- Full Matriculation certificate in elective subjects: Physics, CS.

## SKILLS

Java

JavaScript

Node.js

OOP / OOD

Algorithm

Data structure

React.js

Vue.js

MySQL

React - native

HTML5

Linux

jQuery

CSS

Microservices

REST API

## PERSONAL PROJECTS

### Cross platform mobile application (click)

- Develop croos platform application using react-native and Redux which enables the writing of a uniform code for both android and ios .

### Campground Project - blog application (click)

- Develop full-stack web application using Node.js , React ,Redux , mongo.DB,
- Implement restful routes , authentication , authorization etc..
- Deploy to heroku .

## ACHIEVEMENTS

### Excellent at 1,2,3s't year with a GPA of 93 (click)

### "HackIDC" - 2017

With our skilled team of developers we developed a chatbot for facebook , we have reached the final stage of the infamous hackathon "HackIDC" of 2017. We were among the top 7 best teams in the contest

### Facebook hackathon

Second place while developing safe messenger for children during the hack

## LANGUAGES

English

Hebrew

## INTERESTS

backend developer

machine learning

Deep learning

Big data
